SENIOR PET WELLNESS PLANS

Preventing the Preventable

Maintain the long-term health of your pet and simplify your budgeting!

Call 4875 1144 or email us at: info@highlandsveterinaryhospital.com.au for more information.

When your pet reaches the “golden years of life” its time to celebrate!

Just as our bodies complain a little more as we grow older, the same is typically true for our pets. Just like us, diagnosing and treating geriatric conditions early offers the best chance for successful outcomes.

10

good reasons to enrol your pet in a Senior Wellness Plan:

- 1 **78%** of dogs over 3 years have dental disease.
- 2 **50%** of dogs over 10 years have arthritis.
- 3 **41%** of dogs at 10 years are obese.
- 4 **13%** of cats over 12 years will have hypertension.
- 5 **12%** of dogs over 8 years have heart disease.
- 6 **6.5%** of dogs have stones in their bladder.
- 7 **10%** of dogs over 10 years have kidney disease.
- 8 **12%** of dogs have chronic liver disease.
- 9 **12%** of dogs have severe hormone imbalance.
- 10 **32%** of pets die from cancer.
- 11 **20%** of female dogs over 8 years have urinary incontinence.
- 12 **Up to 25%** of dogs over 8 years have skin tumours.

A plan to suit your senior pet

We have two Senior Pet Wellness Plans available - both plans offer substantial discounts compared to individual services purchased separately. What's more, as a 'thank you' for your participation, both plans come with free extras: nail trim, veterinary consultation and nurse consultation.

7

services included in our Senior Pet Wellness Plans:

1 Annual Health Check & Vaccination

Annual Health checks are mandatory to finding problems early. Vaccinations are an important part of maintaining immunity from potentially fatal diseases.

2 Half Yearly Health Check

"Twice for life" refers to the great benefits of seeing your senior pet 2 times per year for a comprehensive examination.

3 Free Consultation

Early detection will ensure your pet can remain a part of your family for as long as possible.

4 Yearly Blood Test

Your pet will receive a haematology and biochemistry test to ensure we have the best picture of your pet's health.

5 Yearly Urine Test

A urine test can give the earliest sign of kidney disease as well as check for other common problems.

6 Blood Pressure Check

Hypertension rarely gives clinical clues and if not detected and left untreated it can lead to kidney and eye disease as well as significant damage.

7 Eye Pressure Check

When left untreated, glaucoma can rapidly lead to blindness.

** Any additional fees resulting from the consultation exam are the responsibility of the owner on the day of the exam.*

Get peace of mind ...

Let us look after your senior pet... Both of our Senior Pet Wellness Plans include your pet's comprehensive annual health check and Canine 5-in-1 for dogs or Feline 3-in-1 for cats vaccination, 6-monthly health check exam, screening blood/urine tests and blood/eye pressure checks.

2
